Capacity of Services: COVID-19

Updated by Rebecca Guest – May 5, 2020 3pm

Location: Provincial Building, 99 High Street, Bridgewater, Nova Scotia, B4V 1V8

Service Changes:

- **Child Protection** remains an essential business function, and all Community Services offices are operational.
 - **If someone suspects a case of child abuse or neglect**, there is a duty to report, either through your local DCS office or by calling **1-866-922-2434**.
 - Access and family visits are an important part of the lives of children in care and their family members. During the pandemic, this priority needs to be balanced with the safety and wellbeing of children in care, their families, caregivers, and our staff. Therefore, we are temporarily using Skype, Facetime and telephone to facilitate these visits. These measures will be re-evaluated on an ongoing basis to ensure they remain the best ways for children in care to communicate with their loved ones.
- **Disability Support**
 - Each Disability Support participant who is receiving the Standard Household Rate and each dependent member of their family will receive a payment of \$50. This is automatic – participants do not need to apply.
 - This payment is in addition to their Standard Household Rate and will not be considered as an overpayment.
 - All residential care facilities licensed under the Homes for Special Care Act - including Long Term Care Facilities and licensed Disability Support Program funded residences - are closed to visitors.
 - DCS continues to pay core funding to Adult Service Centres and they, in turn, are supporting participants in community in a host of wonderful ways.
 - DCS has increased amount of respite funding available in the Disability Support Program in order to help families get the support they need during these unusually challenging times.
- **Respite Services** is making a policy exception to provide any family already in the Direct Family Support (DFSC) for Children or Flex Funding (Flex at home living with Family and Flex Independent) program with additional respite funding (above their current approved level)
 - This can be used to assist with support while schools and Day programs are closed
 - **Please contact your care coordinator to ensure you are eligible for additional funding and for further information**
 - Rachel Whynot, [Autism Support Coordinator, South Shore](#)
 - E-mail: southshore@autismns.ca
 - Phone: 902 541 8233
 - Cell: 902 514 7489
 - Web Site: www.autismsouthshore.ca
- **Support for Income Assistance Clients:** The province has invested \$2.2 million to support our income assistance clients with challenges they may experience

related to COVID-19. This emergency assistance will provide vulnerable Nova Scotians with additional support for food, cleaning supplies and personal care items.

- Each Income Assistance client and each member of their family received a payment of \$50.
- This payment was in addition to basic assistance and is not considered as an overpayment. DCS will continue to monitor the situation and provide additional assistance when needed.
- DCS is extending the hours of our toll-free line for income assistance, including weekends. People can now speak with someone about Income Assistance eligibility Monday to Friday 8:30 am to 7 pm, Saturday 8:30 am to 4:30 pm, and Sunday 10 am – 2 pm.
- To speak with someone during **extended hours** please contact: **1-833-722-1417**.
- During **regular business hours**, 8:30 am to 4:30 pm Monday to Friday, please continue to contact **1-877-424-1177**.
- DCS has entered into a partnership with TELUS to provide data and mobile phones to our most vulnerable clients who are required to self-isolate or quarantine. These individuals will be identified by their caseworkers or community partners and the phones will be returned to the department when the need subsides.
- DCS is delaying annual income assistance reviews until July 2020.
- DCS is suspending collection of overpayments for current income assistance recipients until August 2020.
- DCS is removing employment participation requirements until July 2020, while continuing to provide supports and services as needed.
- DCS is extending special needs that were due to expire within the next three months until July 2020.
- The department is reducing the number of clients who are required to submit monthly income statements for those who do not report employment or other types of income.
- Clients can call their caseworker to complete their monthly income statement over the phone until July 2020.
- DCS is delaying collection of some required medical and other documentation until July 2020. Clients should contact their caseworker to discuss these interim policy exemptions and how they may apply to their individual circumstances.
